

## **CRANE ENGINEER/SUPERVISOR**

Due to recent expansion we have a new and exciting opportunity for a Crane Engineer/Supervisor to work on a 28/28 rotation in Jakarta.

Reporting to the Contract Manager, Singapore, the successful candidate will work within the Asia Pacific Region on a permanent basis, providing technical and administrative support to our client to meet mechanical handling operation and maintenance objectives.

### **The role**

The primary function of this role is to provide technical assistance to the client's maintenance and operation teams in both onshore and offshore locations. This will include scheduling and mobilising manpower and equipment associated with mechanical handling activities along with compilation of records and monitoring of information relating to the contract. The successful candidate will also be required to build and maintain positive and constructive working relationships with clients, management, team members and other colleagues. You will be able to demonstrate the ability to direct the offshore team to ensure planning, technical integrity and successful completion of contract activities. Mentoring of local staff.

### **The profile**

To best be able to perform on the job, we believe that the ideal candidate should have:

- Previous crane experience with a minimum of 10 years experience working in a Supervisory/Engineering capacity.
- Hold a NVQ Level 3 in Mechanical Maintenance and/or an HND or Degree qualification.
- Ability to work offshore regularly to carry out offshore visits, trouble shooting, supervision, surveys and audits.
- A sound knowledge of lifting and material handling equipment
- Flexibility to deal with new challenges
- Excellent communication skills
- Strong leadership skills

This is an excellent opportunity for career development within the International Group as the Company continues to grow.

### **To apply**

Please submit your application in writing detailing your capabilities and experience to date and highlighting your suitability for the role along with any other relevant information to.
