

Crane Mechanic / Operator

Must be a qualified mechanic having completed an Engineering Maintenance Level 3 NVQ and hold a current Stage 3 Sparrows Offshore Crane Operator Certificate or an equivalent Stage 4 certificate along with previous experience within a similar role.

You will be required to carry out projects offshore as directed by the Foreman and ensure equipment integrity by carrying out routine and breakdown maintenance, servicing and lubrication of all platform mechanical handling equipment in accordance with Client planned preventative maintenance routines and manufacturers manuals/service charts.

The successful candidate will also be required to competently operate platform pedestal cranes under the direction of nominated Client personnel in accordance with the authorised operators instructions manual, platform operating procedures, and the Company's Quality Assurance Manual.
