

Banksman/slinger and rigger

Training and competence standards

With an offshore pedestal crane located at our state of the art training centre in Aberdeen we provide the most realistic onshore training environment possible.

Both our banksman/slinger and rigger training and competence standards are accredited by OPITO, the industry's focal point for training and workforce development.

Ensure your deck crew are experts in their field with training from the global specialists in lifting and handling

Banksman/slinger

Sparrows was the first company to receive OPITO accreditation for this course which delivers knowledge and develops confidence of safe and correct handling of lifting equipment and accessories.

Rigger

Delivers knowledge and develops competence of rigging principles, hazards and risks while providing the opportunity to develop skills on specifically designed rigging modules.
